

**Texarkana College**  
**Community & Business Education Center - Allied Health Program**  
**Pharmacy Technician Comprehensive Program w/ a Clinical Externship**

**SUMMER 2021**

This comprehensive 185-hour program will prepare students to work as a pharmacy technician in retail or other pharmacy settings and to take the Pharmacy Technician Certification Board's PTCB exam. Course content includes: pharmacy medical terminology, the history of pharmacy, the pharmacy practice in multiple environments, pharmacy calculations and measurements, reading and interpreting prescriptions and defining drugs by generic and brand names. Through classroom lecture and hands on labs, students will review dosage calculations, drug classifications, the "top 200 drugs", I.V. flow rates, sterile compounding, dose conversions, aseptic technique, the handling of sterile products, total parenteral nutrition (TPN), dispensing of prescriptions, inventory control and billing and reimbursement.

In addition to classroom lecture and labs, this program includes a clinical externship through a local pharmacy. To be eligible for a clinical externship, students must successfully complete the 105-hour program, submit to a thorough background check, drug screening and meet other course requirements.

**Dates & Times:** Monday & Wednesday; July 5, 2021 – Oct. 25, 2021; 6:00 p.m. - 9:30 p.m. | 105 hrs. | 16 wks. + 80 hrs. Externship

**Registration:** \$1,785 includes textbooks, skills kit, certification study guide & online practices exams, & externship

**Location:** Health Sciences Building, Rm 149

**Refund Policy:** Students will receive a 100% refund upon request, 24 hours prior to the first class meeting only.

**Criminal Background Requirement:** For students who may have a criminal background, please be advised that the background could keep you from being licensed by the State of Texas. If you have a question about your background and licensure, please check with the Pharmacy Technician Certification Board by accessing of their website at <https://ptcb.zendesk.com> and submit a request on your topic of study to determine if you are qualified to obtain a certificate in that field. You also have the right to request a criminal history evaluation letter from the applicable licensing agency.

**Virtual Access:** Students agree and acknowledge that they will go online one evening per week to maintain a safe environment and prevent the spread of disease by reducing contact with others. This may even be a permanent platform, when and if the situation arises. Students also agree to have adequate access to an internet provider with an appropriate device to continue course work online

I acknowledge and understand the course requirements and will comply with as stated above.

# Pharmacy Technician Certification Program

## Pharmacy Technicians

Pharmacy Technicians work in pharmacies under the direction of a pharmacist. Their main responsibility is filling prescriptions according to doctors' orders.

Pharmacy Technicians prepare medications for dispensing to patients. This generally includes retrieving drugs in the correct dosage form and strength, measuring the appropriate amount of drug and producing a prescription label. Pharmacy Technicians work with drugs to be administered orally, topically, for the eye, nose, etc. Depending upon the practice setting, a Pharmacy Technician is also involved in the admixture of drugs for intravenous use. Other duties include:

- ◆ checking inventories and ordering supplies
- ◆ receiving and checking in supplies
- ◆ assisting customers
- ◆ keeping pharmacy work areas clean
- ◆ complete insurance forms
- ◆ preparation of "bingo cards" for nursing home patients

## Pharmacy Technicians – Employment & Education

Pharmacy Technicians may work in retail pharmacies, mail order pharmacies, home infusion pharmacies, long term care facilities, hospitals, clinics, pharmacy benefit managers and large industrial complexes. The demand for Pharmacy Technicians continues to grow with demand expected to increase substantially through 2014. This high demand is the result of the constant availability of new drugs, the national shortage of registered pharmacists, the establishment of certified pharmacy technicians and the aging population.

### Educational Requirements

Students should have taken math and science in high school. A high school diploma or GED is required to sit for the PTCB exam.

## Pharmacy Technician Certification Program

This comprehensive 80 hour course will prepare students to enter the pharmacy field and to take the Pharmacy Technician Certification Board's PTCB exam.

Technicians work in hospitals, home infusion pharmacies, community pharmacies and other health care settings - working under the supervision of a registered pharmacist. Course content includes medical terminology specific to the pharmacy, reading and interpreting prescriptions and defining drugs by generic and brand names. Students will learn dosage calculations, I.V. flow rates, drug compounding, dose conversions, dispensing of prescriptions, inventory control and billing and reimbursement. The Pharmacy Technician Certification Program includes a graded final exam to help prepare students for the PTCB exam.

## PTCB Detailed Course Information:

- ◆ role of the pharmacy technician
- ◆ pharmacy history/discussion of various practice settings and the technician certification process
- ◆ recruiting by pharmacy specialty
- ◆ "Evolution of Pharmacy"
- ◆ review of hospital pharmacy setting, retail practice, regulatory agencies involved with a pharmacy practice, long term care practice setting, mail order pharmacy, home care pharmacy practice
- ◆ pharmacy measures, roman numerals, abbreviations
- ◆ review of generic drugs, basic biopharmaceuticals, dosage forms, patient profiles
- ◆ prescription label requirements, order transcription, ordering and inventory control, drug pricing, third party reimbursement
- ◆ formularies, unit dose systems, emergency and crash carts, house supplies, automatic stop orders, calculating number of doses required
- ◆ all major classes of drugs including top brand names and generic drugs
- ◆ aseptic technique, handling of sterile products including antineoplastic agent considerations
- ◆ basics of IV solutions, calculating 24 hour supply of IV solutions, percentages and electrolytes preparations
- ◆ the metric system
- ◆ apothecaries' and avoirdupois systems of measurement
- ◆ children's doses
- ◆ allegation method, math review
- ◆ Total Parenteral Nutrition (TPN), demonstration of TPN admixture, hands-on practice of IV admixture and parenteral medication preparation.

### **Certification exam options:**

1. Pharmacy Technician Certification Board exam eligibility update for 2020:
  - ❖ Beginning January 1, 2020, candidates must complete a PTCB-Recognized Education/Training Program OR equivalent work experience in order to be eligible to take the PTCB certification exam.
    - To be eligible to register for the Pharmacy Technician Certification Exam (PTCE) under the 2020 requirement, a candidate must complete one of the following:
      - Pathway 1: A PTCB-Recognized Education/Training Program (or completion within 60 days).
      - Pathway 2: Equivalent work experience as a certified pharmacy technician (min. 500 hours). This alternative path will serve experienced pharmacy technicians who were not in a position to attend a PTCB-recognized program.

Texarkana College is currently listed as an approved site by the Pharmacy Tech Certification Board which includes the Community & Business Education Pharmacy Tech program.

2. Students can now sit for the National Healthcareers Association's Pharmacy Tech certification exam and receive CPht credentials effective October 2019 if they choose this option.
  - ❖ We currently utilize this organization to certify our Clinical Medical Assistant, Phlebotomy Tech, Medical Billing & Coding, and our Electronic Healthcare Records.
  - ❖ The exam for the Certification of Pharmacy Technicians (ExCPT) is now recognized by all 50 state boards of pharmacy that require certification as well as states that either expand the number of permitted pharmacy technicians or the scope of pharmacy technician practice based on certification.
  - ❖ Students will receive NHA certification exam study guide and access to online practice exams designed to assist the student to achieve successful completion of the exam.
    - The students will receive a copy of the NHA testing plan and the instructor will utilize this plan as part of the curriculum taught in the course.
    - The certification exam will be scheduled on Texarkana College campus, two weeks after the course is completed.
