Reset Password – Self-service Password Reset (SSPR)

Self-service password reset allows you to reset your password on your own, without needing to contact the Service Desk. For this to work, you need to have already setup your alternate sign in methods.

- 1. Browse to https://passwordreset.microsoftonline.com/.
- 2. Enter your full TC email address in the User ID field and enter the characters in the CAPTCHA image.

3. Choose "I forgot my password".

Next Cancel

 I forgot my password
No worries, we'll help you to reset your password using the security info you registered with us.
I know my password, but still can't sign in This might happen because you tried signing in with an incorrect password too many times. If you choose this option, you'll keep your existing password and we'll unlock your account so you can sign in again. 4. Select "Text my mobile phone", and enter the mobile number associated with your account.

- a. Select "Call my mobile phone" if you're unable to receive text messages. Enter the verification code from the text message or call you received.
- 5. Enter your new password and click Finish. *Note: Please refer to the bottom of this page for Password Requirements.*

6. The message "Your password has been reset" will appear after completion.
