

Letter from the Director

For over 95 years, Texarkana College has served our community by providing quality and affordable higher education. We are proud to be the leader in workforce training and development and a major contributor to Texarkana's economic success. We will continue to work hard to respond to the needs and expectations of our community.

This would not be possible without all of you. You understand the power of education to transform lives and continue to give back to our students. In this report, we will give you a glimpse into what is happening at Texarkana College and the impact you are making in our community.

Thank you so much for your support,

Katie Andrus

Alumni of the Month

This year, the Foundation launched the "TC Alumni of the Month" series. Recipients are selected through a nomination process and are highlighted throughout TC social media platforms and correspondence. To read about the Alumni of the Month recipients visit texarkanacollege.edu/foundation.

"It is never too late to go to college. The resources are out there, you just have to want it. The thing about TC is that there are hundreds of people there to help you every step of the way. The scope of what you want to do with your life is only as small as your imagination. If I can do it, you can too!"

Donor Spotlight

"Texarkana College was the perfect place for me to start. It showed me how to work hard and challenged me to achieve my goals. While a lot has changed since my time as a student in the '60s, a lot has stayed the same. TC was and is a place where faculty and staff genuinely care about the well-being and success of students. I truly enjoyed my time at TC and believe that it was a great place to start my higher education. TC can improve the quality of life for everyone in our community."

Student Success

ACTIVATE

Achieving Completion through Innovation Vision and Team Engagement (ACTIVATE) is a program especially designed for men of color at Texarkana College (TC). This program was inspired by data from the Texas Higher Education Coordinating Board (THECB) that shows consistent disparities in completion rates for men of color compared to their female and other male peers. Students in ACTIVATE are in a cohort of 10-12 men that seeks to equip program participants

with the necessary skills to be successful both inside and outside of the classroom with the goal of completion at TC. ACTIVATE is generously funded by the Texas Pioneer Foundation.
